

Zoe Jovanović – Reading Face Value

After a life on the road – living in Yugoslavia, Italy, Cypress, Syria and now Australia, the language of the face and body has always been the one language that has never changed for Zoe Jovanović.

“Regardless of what language we speak or we tell people about ourselves, the language of the face never lies,” says Zoe. “The face and body reveals about how we feel, our attitudes and approach to life, our strengths and challenges, frame of mind, physical vitality, emotional expression or suppression and more...

“The different structure and shapes of face tell a story about us. Combine that with the different features that make up our faces – such as eyes, lips, nose, fleshiness etc – and you have information that gives you enormous insight both into your own life and those around you.”

Just from looking into a person’s face, you can see their approach to love and passion, relationships and commitment, money and career, plus much more.

Zoe has travelled as a professional dancer, worked as a fitness and aerobic instructor and has Diploma in Teaching Psychosomatic Therapy & Body Mind Communication as well as a Hawaiian-Ka Huna Body Work Certificate and Nature Care Certificate in Tactile Therapies and has extensive massage therapy experience. She is fluent in Italian, Serbo-Croatian and English and can communicate in Spanish and Bulgarian.

As well as doing Face and Body Readings, Zoe also gives great Hawaiian massages – that’s to be experienced!
